

INON BAASOV

Product Manager & System Engineer | Large-Scale Integrated Systems | Defense Domain

inonbaasov@gmail.com | linkedin.com/in/inonbaasov | +972-54-444-5856 | inon-baasov-website.base44.app

PROFESSIONAL SUMMARY

Product Manager & System Engineer with 10+ years of end-to-end ownership of **integrated large-scale systems** — from architecture and design through **Agile** delivery and customer deployment. Led multidisciplinary teams in matrix-based environments, defining **system-wide vision** across workflows and system configurations, and managing cross-organizational processes with operational and technical customers. Proven in mission-critical environments (**Israeli Air Force**) and hands-on delivery of multi-platform integrated systems.

Key Skills: System Engineering | Product Management | Agile / Scrum / PO | System Architecture | Integrated Large-Scale Systems | Matrix-Based Leadership | Stakeholder Management

PROFESSIONAL EXPERIENCE

Inon Baasov Ltd — Product & System Engineering Consulting

2024 – Present

Senior Product & System Consultant

- Led system architecture definition and product requirements for **AiRakoon** (enterprise AI platform): designed integration framework, API usage patterns, and 12-month technology roadmap — enabling closure of first enterprise pilot.
- Defined system-level requirements, KPI frameworks, and cross-organizational delivery plans for **Medicrowd** (AI-enabled MedTech) and **Smash+** (consumer AI platform), coordinating between technical teams and operational stakeholders.
- Built technical evaluation frameworks and data governance models across 4 startups in GenAI, FinTech, and HealthTech — translating operational requirements into implementable system specifications.
- Built and shipped multiple software products end-to-end: **FamilyFlow** (family coordination mobile app), **Trading Journal** (personal trading journal), and **BuildARPro** (AR-powered professional tool, in development) — demonstrating full-stack product ownership from concept to deployment.

TouchE TV — AI Interactive Video Platform (SaaS / PaaS)

2018 – 2024

Co-Founder & Chief Product Officer

- Designed and delivered an integrated large-scale **multi-platform SDK** spanning Web, Mobile, and Smart TV — architected for high availability (**99.99% uptime**) and complex system configurations across client environments.
- Led **system engineering** from 0 to production: defined system-wide vision, owned architecture decisions, and managed cross-organizational processes with clients (**HOT, Ozon, Eros Now, Paramount**) including integration, testing, and deployment.
- Secured **\$2.5M** in enterprise partnerships with **JVP and Lion's Gate**, driving cross-organizational stakeholder alignment across technical and business decision-makers.
- Managed a matrix-based development team of 4 cross-functional squads (R&D, QA, Product, Ops); drove **38% efficiency improvement** via full **Agile / Scrum** transformation.
- Delivered end-to-end multidisciplinary systems: **Creator CMS, Viewer SDK, AI Recommendation Engine, Analytics Dashboard, and Monetization Engine** — each integrated across the full platform stack.

Arena Plus Financial Services — FinTech Platform (B2B)

2013 – 2018

Product Manager → Senior Product Manager (Promoted)

- Owned end-to-end **product roadmap** for an integrated enterprise **FinTech platform**: managed workflows and system configurations across 3 geographies, delivering **+22% user adoption** and **-20% time-to-market** via structured Agile delivery.
- Led cross-organizational processes with operational and technical customers; managed **sprint ceremonies, backlog**, and C-suite stakeholder reporting.

Previous Experience

- Regulatory Affairs Consultant, Blau Pharmaceuticals (2009–2011)
- QA Manager, Pharmabest & Philtel (2011–2013)

EDUCATION

- Executive MBA**, Entrepreneurship & High-Tech Management — Technion, Israel Institute of Technology (2018)
- B.Sc.**, Biotechnology & Food Engineering — Technion, Israel Institute of Technology (2008)
- Chemical Engineering Studies — McGill University, Montreal, Canada (2005)

MILITARY SERVICE

Israeli Air Force — Planning and Control Department

2000 – 2003

- Oversaw a 27-person operational roster in a mission-critical environment: managed shift planning, operational readiness, and equipment logistics under high-pressure operational conditions.
